Mr. Walter F. Vogl PhD- I am in full support of Mr. Ken Edgll's response regarding the proposed mandatory guidelines for "Federal Workplace Programs." In the interim of the decision making process- we must keep reliability and liability foremost. The proposed guidelines are very critical to all involved and should not be taken in stride.

"The criticism will not yield in time.... only increase.... as chaos will surface if the F.W.P. is mandated."

Cordially,

Natalie R. Childress
